

## Build your first contract With the Wizard of OZ

Hadrien Croubois OpenZeppelin

#### OpenZeppelin's thesis

- There will be a trillion dollar open economy built on blockchains and powered by smart contracts
- This new, open economy will be built by teams of creative people developing new applications used by billions of people
- These teams will need a set of tools, products and services to make sure that what they
  are building is safe and reliable
- OpenZeppelin will be a leading provider of these solutions, allowing teams to build faster with lower risk

#### OpenZeppelin's products

### It's demo time!
