Five Devcons in Five Minutes

Xmas and New Year for Web3!

Thomas Barker
Freelance Software Development & Consulting,
The Guy Who Used To Work At Ltd
Why am I qualified to give this talk? :) 

I have been to all (almost all) of them. Not cool enough for zero.

See 👀

👉 Of
👉 T-Shirt
👉 Protocol
As much my perception as reality!

1. Nerds meet Bitcoin
2. We’re a Grown-up Tech Now
3. We are Rich and Fabulous
4. Cry & Build
5. There is such a thing as society
Devcon I : London

Cypherpunks, academics, nerds, and few journalists. One long coffee line.

- Benefits of Smart Contracts
- Casper PoS
- Libertarian feel
- The DAO was proposed
- Ethereum was DoS’d
Devcon II : Shanghai

Proper businesses, respectability, PRC academics and businesses, banks!
Good catering 👍

- Safety & Security
- Formal Methods
- Bring your own nightlife
- Ethereum Classic Oh my
- The DAO "post mortem"
- Ethereum was DoS’d
BokkyPooBah’s String Games start at this point!

Important milestone.
Devcon III : Cancun

“I used to sell FX Options investments”. Catering was disappointing, afterparties unmatched..

- ZK-Snarks become cool.
- 0x & EtherDelta introduce the DEX
- l_Os banned from main event…
- Bit disorganised :)
- Day of the Dead
- Oops I killed it. (3 days after!)
Devcon VI : Prague

Developers, journalists, early DAOs. Decent coffee.

- Where haz money go 🤔
- Tooling and Governance Talks
- First time I felt Web3 had IDE/CI/packaging
- Paper xDai wallets everywhere
- Blockchains LLC !!! 👉
- Dwarves, castles, and boat raves!
  - The beer 😊
Devcon V : Osaka

Early DAOs. Talking about law and society. Free flow coffee.

- Early talks on financial products
- Ethereum 2.0!!!
- Lots of “Crypto Law”
- ERC721 presented as generalised CryptoKitties
- Friendly fork with Ava
- Libra came to town
- Lots of hanging downtown 🍻
Devcon IV : Bogotá

???

- TBA
- TBA ??
- TBA !
- TBA
- TBA TBA TBA
- TBA 🍻
Many thanks to 🙏🤗
