Web3 + Ukraine Government
Integration & Impact

Max Semenchuk
Deputy director Virtual Assets Project Office, Ministry of Digital Transformation of Ukraine
How I’ve got here?

- 17 years in various positions in IT
- Is there a better way to work?
- DAOs, Eth Governance, my 3rd Devcon
- Community & Cultural aspects
- Covid Hacktivism
- Ministry of Digital Transformation of Ukraine
What’s on agenda?

- Ecosystem Development
- Vision & Foresight for Capacity Building
- Crisis Management
- Case Studies
Ukraine Context

- Leadership in adoption has it’s reasons
- Regulation efforts
- New Ministry – government in a smartphone
- Crypto Reputation & Opposition
Challenges

- Conflict of visions / perception of the ecosystem
- Lack of trust and internal holy wars (crypto anarchist vs gov)
- No aligned strategy for global
- Scarce resources (mid bear market)

Fun, right?
VASP Registry: Case Study

- Small case, 3 choices: public, private, centralized
- Swiss Consultants: Ethereum!
- Donors: Not the case for blockchain
- Business: No, thanks!
- Gov Lawyers: What’s blockchain?

So what do you think we chose?
Part 2

The Vision
What is Foresight?
